CELTIC THUNDER-(Jim Hedgecock-2010)-Sdlg.-J-26-A-TB-34''-EM-We are very proud of this new, dark purple iris. Coming from our dark space age lines, it does not have the adornments, but it was just too good to leave out. Celtic Thunder is absolutely a rampant grower. Tons of increase and plenty of garden appeal are the standard here. The standards are ruffled dark purple. Falls are darker purple with dark purple beards that have brown tips deep in the throat. It also has a mild pleasant fragrance. You will love this one. Night Ruler X Fright Night. \$50.00 **Free with your \$50 order\***.

EMILY KAY-(Jim Hedgecock-2010)-Sdlg.-M-77-C-TB-38''-M-Nmaed for Jim's cousin's granddaughter. Emily Kay is another of those garden irises that just grows and grows. Superb plant habits and rampant growth. The standards are laced and ruffled icy lavender with a darker lavender wash at the midribs. Falls are laced, ruffled and fluted medium lavender. The beards are white. Crown it off with a pronounced sweet fragrance. Truly a grand new bicolor from our lines. Carel Dean X Song Of Angels. \$50.00 **Free with your \$50 order\***

KANSAS CITY STAR-(Jim Hedgecock-2010)-Sdlg.-0-98-B-TB-32+-EM-This seedling was a garden hit here last year at the convention. It was planted near the convention plantings and everyone that saw it, wanted it. It is not the widest iris on the market and the form could be a little better. The color saturation and profuse bloom on each stalk, override any complaints. The stalks are excellent with bud count of 8 to 10. The standards are laced and ruffled medium pink. Falls are laced, ruffled, and fluted dark pink with pale pink rims and striations at the beards. Beards are brilliant red-orange. A star was born here last year. Alice Goodman X Ensminger AE 81-66, Unknown. \$50.00 **Free with your \$50 order\***

\*\$50 order must be for plants before taxes and shipping
